#### Rating Rationale and Key Rating Drivers

LRA has assigned 'Rating Watch' to the debt instrument rating of First Capital Holdings PLC (FCH). This is in the wake of the announcement by Peoples Leasing & Finance PLC on the potential acquisition of up to ~33% stake in FCH. The execution of the sales purchase agreement has been affirmed with a target price of LKR 4,958mn. The transaction remains subject to approval by the Central Bank of Sri Lanka. People's Leasing & Finance PLC will acquire 33% shareholding from Janashakthi Holding and will also have a presence on the board. LRA is closely following the transaction and will consider all aspects once the transaction is finalized. FCH is a prominent Holding Company within the financial service industry. First Capital Treasuries PLC (FCT), the Company's subsidiary in Primary Dealer activities, has been a major contributor towards FCH's business profile and profitability. Meanwhile, the Company has expanded into multiple financial services avenues including, Capital Markets Advisory, Wealth Management, Fixed Income, and Equities. During FY23, FCH has shown significant improvement and witnessed positive results in the rising interest rate environment. With a view to sustainable diversified revenue streams, management is building upon various revenue segments in terms of both activity-based and fee-based incomes. The rating takes into account the liquidity mechanism to be undertaken by the Company to ensure timely payments of maturing debt obligations.

Rating is dependent upon eventual outcome of the potential acquisition by People's Leasing & Finance PLC and impact it will have on FCH's profile and outreach. Certain synergies are expected from this acquisition and their impact will be reviewed accordingly.

## Credit Rating

Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

Long-term Rating	
Scale	Definition
AAA	<b>Highest credit quality.</b> Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments
AA+	
AA	<b>Very high credit quality.</b> Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.
AA-	
A+	
A	<b>High credit quality.</b> Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.
A-	
BBB+	
BBB	<b>Good credit quality.</b> Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.
BBB-	
BB+	<b>Moderate risk.</b> Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.
BB	
BB-	
B+	
B	<b>High credit risk.</b> A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.
B-	
CCC	
CC	<b>Very high credit risk.</b> Substantial credit risk “CCC” Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. “CC” Rating indicates that default of some kind appears probable. “C” Ratings signal imminent default.
C	
D	Obligations are currently in default.

Short-term Rating	
Scale	Definition
A1+	The highest capacity for timely repayment.
A1	A strong capacity for timely repayment.
A2	A satisfactory capacity for timely repayment. This may be susceptible to adverse changes in business, economic, or financial conditions.
A3	An adequate capacity for timely repayment. Such capacity is susceptible to adverse changes in business, economic, or financial conditions.
A4	The capacity for timely repayment is more susceptible to adverse changes in business, economic, or financial conditions. Liquidity may not be sufficient.

\*The correlation shown is indicative and, in certain cases, may not hold.

<b>Outlook (Stable, Positive, Negative, Developing)</b> Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. ‘Stable’ outlook means a rating is not likely to change. ‘Positive’ means it may be raised. ‘Negative’ means it may be lowered. Where the trends have conflicting elements, the outlook may be described as ‘Developing’.	<b>Rating Watch</b> Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.	<b>Suspension</b> It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.	<b>Withdrawn</b> A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults, or/and e) PACRA finds it impractical to surveil the opinion due to lack of requisite information.	<b>Harmonization</b> A change in rating due to revision in applicable methodology or underlying scale.

**Surveillance.** Surveillance on a publicly disseminated rating opinion is carried out on an ongoing basis till it is formally suspended or withdrawn. A comprehensive surveillance of rating opinion is carried out at least once every six months. However, a rating opinion may be reviewed in the intervening period if it is necessitated by any material happening.

**Note.** This scale is applicable to the following methodology(s):

- a) Broker Entity Rating
- b) Corporate Rating
- c) Debt Instrument Rating
- d) Financial Institution Rating
- e) Holding Company Rating
- f) Independent Power Producer Rating
- g) Microfinance Institution Rating
- h) Non-Banking Finance Companies Rating
