Rating Rationale and Key Rating Drivers

Nawaloka Medicare (Pvt) Ltd was established in 2013 as a 100% owned subsidiary of Nawaloka Holding PLC which later-on was spun off from the group on 31st Dec 21, with a separate management team. Nawaloka Medicare is no longer associated with Nawaloka Hospital PLC. Post restructuring, Nawaloka Medicare is a 100% owned subsidiary of Nawaloka Care (Pvt) Ltd. It is a family-owned business. Lack of independent oversight at board level and the governance structure needs consideration. At present the Company has wholly owned subsidiary i.e., Nawaloka Care Laboratories (Pvt) Ltd and two branches Nawaloka Premier Centre and Nawaloka Medicare Hospital Gampaha. Nawaloka Medicare has a noticeable presence in the healthcare sector under the brand name Nawaloka offering a range of facilities which is considered a strong element for the company. The business is fueled by a vision to expand and penetrate regionally. The health care sector is dominated by the public sector which accounts for about 95% of medical beds. Private sector health care sector operates consultant driven model and patients follows the consultant. Almost all these consultant practice in the public sector and they operate their consultancy services in the private sector during early morning hours and afternoon onwards. Private sector has been able to obtain a market share by providing value added services. Nawaloka Medicare has a low number of beds in the hospital compared to other hospitals however revenue per bed per day is within industry norm. Nawaloka Medicare benefit from its presence at regional level. At industry segment level, there is low barriers to entry due to high Capex requirement. To expand the capacity, Nawaloka Medicare has already invested in another wing with 35,000 sqft to accommodate more patient rooms as well as channel consultation rooms. Ratings take comfort from Company's sustainable revenue streams over the years and relatively subdued competition at regional level, however, the bottom-line is expected to shrink as benefit of tax exemption expires.

Key rating drivers are based on sustained revenues, Low gearing and strong demand for private sector health care, however the governance and board structure needs improvement.

Business Risk

Industry Dynamics The health care sector is dominated by the public sector which accounts for about 95% of medical beds. Private sector health care sector operates consultant driven model and patients follows the consultant. Almost all these consultant practice in the public sector and they operate their consultancy services in the private sector. Private sector has been able to obtain a market share by providing value added services.

Relative Position Nawaloka Medicare is a relatively smaller hospital compared to other hospitals however revenue per bed per day is within industry norm.

Revenues As at 31st March 2022, the main revenue consist of Laboratory. The second largest revenue generator is the consultation and surgery. Pharmacy and other revenue would be the next largest one. But normally main revenue consists of inhouse patient i.e Consultation and surgery. However, with pandemic settling down, lab income is expected to come to pre COVID level. Company is willing to have LKR 1.8Bn of Revenue by the end of this year

Margins The Company is able to maintain a gross margin above 50% during the period under review (FY20 to 6MFY23): During FY22 gross margins stood at 63% (FY21: 59%) which is an increase if 4%. Taking the benefit of tax exemption and low gearing, the company's net profit margin stood 23% during FY22 (FY21: 17%) and 15% in 6MFY23. NMP is maintain a 60% gross margin as they planned and they will continue this margin in future.

Sustainability Private sector health care services is expected to increase going forward. The government has allowed the consultants to do private practice during off duty hours as created a thriving private sector health care segment. This practice is not expected to be changed in the near future considering the experience and the private practice fees which is a significant sum for the consultant. NMP provides all medical services to the customers which blocks the entering of another competitor brand. As part of their expansion, the hospital has already invested in another wing with 35,000 sqft to accommodate more patient rooms as well as consultation rooms. New wing will expand the capacity of the hospitals further and ensure revenue growth.

Financial Risk

Credit Rating

Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

Scale	Long-term Rating Definition
AAA	Highest credit quality. Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments
AA+	
AA	Very high credit quality. Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.
AA-	
A+	
A	High credit quality. Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.
A-	
BBB+	
BBB	Good credit quality. Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.
BBB-	
BB+	Moderate risk. Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.
BB	
BB-	
B+	
B	High credit risk. A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.
B-	
CCC	
CC	Very high credit risk. Substantial credit risk “CCC” Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. “CC” Rating indicates that default of some kind appears probable. “C” Ratings signal imminent default.

*The correlation shown is indicative and, in certain cases, may not hold.

Outlook (Stable, Positive, Negative, Developing) Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. ‘Stable’ outlook means a rating is not likely to change. ‘Positive’ means it may be raised. ‘Negative’ means it may be lowered. Where the trends have conflicting elements, the outlook may be described as ‘Developing’.

Rating Watch Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch can be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.

Suspension It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.

Withdrawn A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults, or/and e) PACRA finds it impractical to surveil the opinion due to lack of requisite information.

Harmonization A change in rating due to revision in applicable methodology or underlying scale.

Surveillance. Surveillance on a publicly disseminated rating opinion is carried out on an ongoing basis till it is formally suspended or withdrawn. A comprehensive surveillance of rating opinion is carried out at least once every six months. However, a rating opinion may be reviewed in the intervening period if it is necessitated by any material happening.

Note. This scale is applicable to the following methodology(s):

- a) Broker Entity Rating
- b) Corporate Rating
- c) Debt Instrument Rating
- d) Financial Institution Rating
- e) Holding Company Rating
- f) Independent Power Producer Rating
- g) Microfinance Institution Rating
- h) Non-Banking Finance Companies Rating
