#### Rating Rationale and Key Rating Drivers

The rating reflects LOLC Holding's ("the HoldCo") robust position as the ultimate Holding Company of the LOLC Group (the Group) - one of the largest conglomerates in Sri Lanka (Asset Base of LKR~1.7trn – FY24). The Group has diversified geographically and has presence in 25 countries, primarily in South and South East Asia, Central Asia, Africa, and MENA Region. At the broader level, the Group's operating segments are clustered into financial and non-financial segments, with financial segment possessing the higher share of ~89.5% in the Group's revenue. The assigned rating incorporates the cumulative impact of the financial performance of the Group in addition to the standalone performance of the HoldCo. Historically, the HoldCo's financial performance has remained strong despite economic challenges in Sri Lanka. Diversification in other segments and USD based revenues have provided cushion and strengthened profitability. The HoldCo's net profits have increased to LKR~29.8bn in FY24 from LKR~22.4bn in FY23. The Group's net profit remained stagnant at LKR~21.7bn in FY24 (FY23: LKR~21.6bn). The debt-to-equity ratio remains comfortable at the HoldCo level but has increased to ~51.3% in FY24 (FY23: ~42.7%). The HoldCo's financial liabilities are dominated by short-term debts, mostly Commercial Paper (CP) Programs, representing ~62% of the total debt. This is mainly because of higher intercompany lending (FY24: LKR~195.9bn; FY23: LKR~117.6bn). Reduction in interest rates bodes well for the Group and HoldCo, given high amount of debt. Short-term debt is expected to be successfully rolled over but needs to be managed carefully considering higher quantum of borrowings maturing within 12 months. Meanwhile, the HoldCo's liquidity profile consists of investments, placements with financial institutions and unutilized short-term lines. The Group and HoldCo are taking several initiatives to improve liquidity and reduce debt. The "Rating Watch" signifies these initiatives and materialization of the same in timely manner. These include divestment of certain strategic investments and liquidation of Government Securities.

Successful and timely completion of the management's plan to divest assets and reduce borrowings is important for the rating. Improvement in the debt mix towards long term debt to alleviate pressure on short-term repayments will and reduction in debt level will be positive. Meanwhile, enhanced cashflows from operations and materialization of envisaged plans for income generation are imperative to improve the HoldCo's financial matrix.

**Credit Rating**

Credit rating reflects forward-looking opinion on credit worthiness of underlying entity or instrument; more specifically it covers relative ability to honor financial obligations. The primary factor being captured on the rating scale is relative likelihood of default.

Scale	Long-term Rating Definition
AAA	<b>Highest credit quality.</b> Lowest expectation of credit risk. Indicate exceptionally strong capacity for timely payment of financial commitments
AA+	
AA	<b>Very high credit quality.</b> Very low expectation of credit risk. Indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.
AA-	
A+	
A	<b>High credit quality.</b> Low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be vulnerable to changes in circumstances or in economic conditions.
A-	
BBB+	
BBB	<b>Good credit quality.</b> Currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity.
BBB-	
BB+	
BB	<b>Moderate risk.</b> Possibility of credit risk developing. There is a possibility of credit risk developing, particularly as a result of adverse economic or business changes over time; however, business or financial alternatives may be available to allow financial commitments to be met.
BB-	
B+	
B	<b>High credit risk.</b> A limited margin of safety remains against credit risk. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.
B-	
CCC	
CC	<b>Very high credit risk.</b> Substantial credit risk “CCC” Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. “CC” Rating indicates that default of some kind appears probable. “C” Ratings signal imminent default.
C	
D	Obligations are currently in default.

Scale	Short-term Rating Definition
A1+	The highest capacity for timely repayment.
A1	A strong capacity for timely repayment.
A2	A satisfactory capacity for timely repayment. This may be susceptible to adverse changes in business, economic, or financial conditions.
A3	An adequate capacity for timely repayment. Such capacity is susceptible to adverse changes in business, economic, or financial conditions.
A4	The capacity for timely repayment is more susceptible to adverse changes in business, economic, or financial conditions. Liquidity may not be sufficient.

*\*The correlation shown is indicative and, in certain cases, may not hold.*

**Outlook (Stable, Positive, Negative, Developing)** Indicates the potential and direction of a rating over the intermediate term in response to trends in economic and/or fundamental business/financial conditions. It is not necessarily a precursor to a rating change. ‘Stable’ outlook means a rating is not likely to change. ‘Positive’ means it may be raised. ‘Negative’ means it may be lowered. Where the trends have conflicting elements, the outlook may be described as ‘Developing’.

**Rating Watch** Alerts to the possibility of a rating change subsequent to, or, in anticipation of some material identifiable event with indeterminable rating implications. But it does not mean that a rating change is inevitable. A watch should be resolved within foreseeable future, but may continue if underlying circumstances are not settled. Rating watch may accompany rating outlook of the respective opinion.

**Suspension** It is not possible to update an opinion due to lack of requisite information. Opinion should be resumed in foreseeable future. However, if this does not happen within six (6) months, the rating should be considered withdrawn.

**Withdrawn** A rating is withdrawn on a) termination of rating mandate, b) the debt instrument is redeemed, c) the rating remains suspended for six months, d) the entity/issuer defaults., or/and e) PACRA finds it impractical to surveil the opinion due to lack of requisite information.

**Harmonization** A change in rating due to revision in applicable methodology or underlying scale.

**Surveillance.** Surveillance on a publicly disseminated rating opinion is carried out on an ongoing basis till it is formally suspended or withdrawn. A comprehensive surveillance of rating opinion is carried out at least once every six months. However, a rating opinion may be reviewed in the intervening period if it is necessitated by any material happening.

- Note.** This scale is applicable to the following methodology(s):
- a) Broker Entity Rating
  - b) Corporate Rating
  - c) Debt Instrument Rating
  - d) Financial Institution Rating
  - e) Holding Company Rating
  - f) Independent Power Producer Rating
  - g) Microfinance Institution Rating
  - h) Non-Banking Finance Companies Rating
